

On Friday, May 7, 2010, Fort Belvoir initiated a low-frequency AM radio announcement service. This service, which is available at 1610AM, will provide Soldiers, Employees, and Families who live and work on post with community news and information. The service will also allow for the immediate posting of emergency information, such as severe weather alerts. The broadcast area includes Fort Belvoir's Main Post and approximately a five-mile radius beyond the garrison.

For additional information, please contact the Fort Belvoir Public Affairs Office at
(703) 805-5001 or (703) 805-2019.
